## Professional Summary

Versatile **LLM & Python Prompt Engineer** and **Full Stack Developer** with 6+ years of freelance experience across AI/ML, app development, and data-driven solutions. Skilled in training language and voice recognition models, building cross-platform applications, and deploying scalable AI systems. Strong collaborator with proven expertise in **Python, Java, NLP, data annotation, and prompt engineering**, blending technical problem-solving with impactful communication as a **public speaker and author**.

---

## Core Skills

- **Programming:** Python, Java, SQL, JavaScript, React, Node.js
  - **AI/ML & Data:** LLM Prompt Engineering, NLP, Data Preprocessing, Model Training, Evaluation, Annotation Workflows
  - **Tools & Platforms:** TensorFlow, PyTorch, Hugging Face, Git, AWS, Google Cloud
  - **Other Skills:** Technical Recruiting, Audio Labeling, Transcription, Public Speaking, Content Development
- 

## Professional Experience

### AI/ML Intern

*Avijo | Aug 2025 – Present | Remote*

- Assisted in **data preprocessing, model training, and evaluation** to support machine learning research and development.
- Worked on **AI model optimization and accuracy improvement** for business-driven use cases.

### **Freelance Recruiter**

*Cephas Consultancy Services Pvt. Ltd. | Aug 2025 – Present | Remote*

- Conducted **end-to-end recruitment** for IT and non-IT roles.
- Specialized in **candidate sourcing, screening, and client alignment** for top talent placements.

### **Audio Labeling & Transcription Specialist**

*Uber for Business | Aug 2025 – Present | Remote*

- Delivered high-accuracy **audio labeling and transcription** to support **AI training datasets**.
- Improved model efficiency by maintaining **data consistency and quality**.

### **LLM Prompt Engineer (Freelance)**

*TELUS Digital AI Data Solutions | Jul 2024 – Present | Remote*

- Developed and refined **prompts for AI training** to enhance voice recognition systems.
- Contributed to **AI model improvement** by providing structured training data.

### **Public Speaker (Part-time)**

*PlanetSpark | Oct 2023 – Present | Remote*

- Conducted **Business English and communication sessions** to help learners improve professional fluency.
- Delivered **interactive training and workshops** for career and personal growth.

---

## **Education**

### **Master's in Computer Science**

*St. Francis College for Women | May 2022 – May 2024 | Grade: 9.6/10*

### **Bachelor's in Physical Sciences**

*St. Francis College for Women | May 2019 – May 2022 | Grade: 9.4/10*

---

## Publications & Projects

- **Author of multiple books** on Python developer interviews, Data Engineering, and PPDT for SSB (available on Amazon).
  - **Founder of Ace Resume Co.**, a career services venture specializing in ATS-friendly resumes and career branding.
  - **Developed and deployed** cross-platform web and mobile applications for clients as a freelancer.
- 

## Certifications

- Certified English Instructor
  - AI/ML & Prompt Engineering Workshops
- 

## Achievements

- 60K+ post impressions on LinkedIn with strong engagement in **AI, tech, and defence awareness content**.
- Recognized **public speaker and career mentor** with 1,700+ followers and 500+ professional connections.
