Kindly reply to this email confirming that we have had a detailed conversation about this opportunity, all your questions have been satisfactorily answered, and you give your consent for **YO HR Consultancy** to represent you for this role.

Job title: VLSI RTL Designer

Location: Austin, United States

Pay rate/Salary: Competitive, based on experience (Full-time, On-site, H-1B sponsorship available)

Job Description:

The position involves the design and optimization of digital architectures, RTL coding, synthesis, and timing analysis for advanced semiconductor and AI infrastructure systems. The role requires a strong background in RTL design (Verilog/SystemVerilog), ASIC/FPGA development, and collaboration with architecture and verification teams.

Please let me know if you have any questions after reviewing the details as presented. We look forward to working with you through this process.

Thanks,
